INDEX

Roofing	01
Finishing	15
Masonry	19

The brand Torreense is a reference in the Portuguese Ceramic Industry, especially with its significant presence in the Structural Ceramics market.

We have kept true to the initial aim of providing quality ceramic solutions for construction since 1928 and this is why we have diversified our business over the last 80 years and currently offer a wide range of products.

- Roofing: roof tiles and roof accessories.
- Masonry: ceramic air bricks and jack-arch ceramic bricks.
- Terminaison: pavé et brique pavé extérieur.

Being made up of completely national capital, we possess 5 manufacturing units which annually transform 400,000 tonnes of clay into efficient, durable and economic products which are true to traditional preferences and open to new architectural trends.

In these pages you will get to know, in a structured and detailed manner, our range of products along with some useful technical information for professionals.

Some sections are in constant development and therefore we recommend frequent visits or that you join our update and news mailing list.

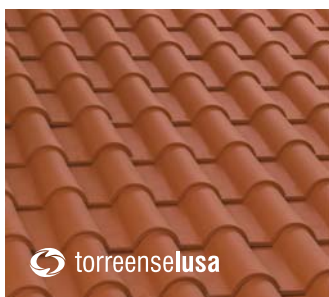

SINCE 1928

ADDING VALUE TO YOUR CONSTRUCTIONS

ROOFING

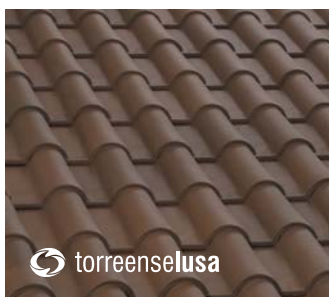

Natural Red

White

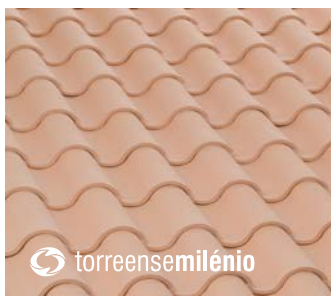

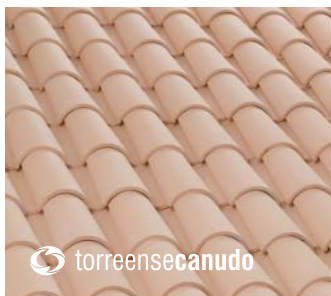

Brown

First the
roof,
then the roof tile.

Each roof has its own personality;
we want to help you find the one
that suits you best. Find your roof,
leave the tiles to us.

Rustic Coating

Raw bricks and fireplace bricks.

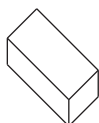

Torreense coating tiles provide added value to any construction work, as well as supplementary value hard to find in other construction materials: high resistance, thermo-acoustic, genuinely rustic and purely beautiful.
