Torreense advantages

Mini-parcels

Superior transport safety and ease of use:

Torreense accessories are sold in pallets containing mini-parcels.

Mini-pieces

For the small details:

mini-pieces are the best solution for your roof's decorative details.

Authentic experience in roof tile manufacturing since 1928 has produced the finest collection of portuguese roof tiles.

High quality clays and modern technology have combined with the expertise and creative vision of several generations of professionals to produce innovative and architecturally sound products.

Our products create a unique and attractive look for a roof. Let us share with you the rich beauty and durability of our natural products.

A unique and attractive look for your roof
